

■ CoreStore Plus

The CoreStore Plus is an ultra-small form factor SSD designed to fit into a standard Mini-PCIe slot. This mini-PCIe card form factor is perfect for embedded applications, netbooks, notebooks, and tablets where hardware space is limited.

The CoreStore Plus is available in 16 GB to 128 GB capacities and with MLC or SLC flash with read and write speeds of up to 370/120 MB/s.

*Note: Gen 2 PCIe slot required for top speeds.

Physical Specifications

Capacity	16GB–128GB
Dimension	50.8 x 29.85 x 3.5 mm
Interface	Mini PCIe
NANDFlash	MLC/SLC
PowerSupply	3.3V ± 10%

Environmental Specifications

Shock (Operating)	1500G
Vibration (Operating)	16G
Operating Temp.	0°C ~ 70°C

Ordering Information

MLC	
16GB	FPN016C2RM
32GB	FPN032C2RM
64GB	FPN064C2RM
128GB	FPN128C2RM

SLC	
16GB	FPE016C2RM
32GB	FPE032C2RM
64GB	FPE064C2RM
128GB	FPE128C2RM
